

FREEDOM

*If You Buy This Machine You May End Up With Too Much Free Time
(and Money)!*

*According to Devo at Pitt and Co (Aust) Pty Ltd,
"We used to spend an 8 hour day applying double-sided tape
and (application fluid) to approximately 50 small signs ...
now we can put the same amount through the Ezy Taper®
in less than 20 minutes DRY!"*

If you buy yourself an **Ezy Taper®** you will end up with more for free than time! You buy a **Print Mounter** and you get a **Print Mounter** plus a **FREE Laminator** plus a **FREE Transfer Tape Applicator** plus a **FREE Vinyl Graphics Applicator** plus a **FREE Background Coater...and more!** You're limited only by your imagination, but that's at least 5 for the Price of 1!!

"...it is possible to push material through at an incredible rate. The Ezy Taper® is designed from scratch for the sign industry... As far as I have found, anything that will fit between its rollers can be stuck together, or even taken apart (I use it to remove transfer tape from larger applications)," says Darwin Marshall, All Color Signs, Graphics & Decals, The Pas, MB.

To make the deal even sweeter, **Ezy Taper®** requires only a single operator. (That's a single pay cheque, hint, hint.) Do you think **Ezy Taper®** is the right solution for your shop? Read the **Ezy Taper®** Story and check out the **videos** on our website, then call SignEquip to order your **Ezy Taper®** now.
